

**Dear Parents,**

Keeping safety and security of the children in mind, We hereby express our deep concern for the children who come to school by activa or motorcycle without carrying any Driving License.

Kindly note that we do not allow our student using any kind of vehicle if they are not having any driving license with them.

It has also been observed that the students do not wear helmets, They drive on high speed and share ride in triplets just for fun sake which is a great risk and threat to their life and others. These students also park their vehicles at just anywhere without any security of vehicles.

As per transport norms, children under 18 years of the age must not drive any vehicle until or unless having any driving license with them..

All the parents are directed not to allow your child to drive activa or motorcycle during school time without having driving license.

In case of any mishappening on the road, School will not be held responsible.

Principal
